

SAMSUNG

Wind-Free™ Comfort

**Intelligent cooling.
No cold drafts.**

samsung.com/wind-free

Introducing the Samsung Wind-Free™ Comfort

The Samsung Wind-Free™ range keeps you comfortably cool without any cold drafts. It provides intelligent home climate comfort thanks to smart controls that adapt to your personal preferences, automatically maintaining optimal conditions.

Wind-Free™ Cooling

Wind-Free™ technology enhances your indoor comfort by using thousands of micro-holes to disperse fresh air uniformly without any unpleasant blasts of cold wind. In Wind-Free™ mode, air is spread softly and silently, creating a 'Still Air' environment¹ that provides you total well-being day and night.

Smart Operation

AI Auto Comfort² introduces you to an intelligent way of living. It analyses your room conditions and usage patterns³, and then automatically adjusts the temperature. Temperatures can also be managed remotely using the SmartThings App⁴. Turning it on and off, selecting the cooling mode or scheduling its operation is just one touch away.

Energy Efficiency

Samsung's compressor with Digital Inverter Boost technology helps you to save on energy consumption. Its strong neodymium magnets and muffler increase efficiency, cooling quickly without wasting energy, while keeping vibrations and noise levels to a minimum. When cooling, the compressor optimises power usage which allows to minimise energy consumption.

¹ASHRAE (American Society of Heating, Refrigerating, and Air-Conditioning Engineers) defines "Still Air" as air currents at speeds below 0.15m/s which lacks the presence of cold drafts.

²A Wi-Fi connection and Samsung SmartThings application account are required. ³Stores user data, preferences and usage patterns to suggest the most useful options.

⁴Available on Android and iOS devices. A Wi-Fi connection and Samsung SmartThings application account are required.

Step 1

The front panel opens, and Fast Cooling mode cools the room quickly from corner to corner.

Step 2

The set temperature is reached in Fast Cooling mode, and the front panel closes.

Step 3

Wind-Free™ mode spreads fresh air uniformly through thousands of micro-holes.

Unique Samsung Solution

Wi-Fi Control

Temperatures in your home can be managed remotely using the SmartThings App¹. Turning it on and off, selecting the cooling mode, scheduling its operation or monitoring the power consumption is just one touch away. The Bixby 2.0 Artificial Intelligence (AI) system² analyses and predicts your needs so it can suggest the best settings for inside your home.

¹Available on Android and iOS devices. A Wi-Fi connection and Samsung SmartThings account are required. ²Voice control is supported in English (US, UK, Indian), Chinese, Korean, French, German, Italian and Spanish. Portuguese is scheduled to be supported by the end of 2019.

AI Auto Comfort

AI Auto Comfort¹ introduces you to an intelligent way of living. To make life simpler and more efficient, it analyses room conditions and usage patterns². Based on your preference and the temperatures outside, it automatically adjusts the temperature to optimise the room's climate conditions, guaranteeing total comfort at all times.

¹AI = Artificial Intelligence. A Wi-Fi connection and Samsung SmartThings application account are required. ²Stores user data, preferences and usage patterns to suggest the most useful options.

SmartThings

Samsung SmartThings adds smartness to your home. Connect, automate and manage all your Samsung and SmartThings-compatible appliances and electronics with a single, easy-to-use App¹. Getting started is easy with a Samsung Account. Once you have created your SmartThings profile, the App automatically finds compatible devices².

¹Available on Android and iOS devices. A Wi-Fi connection and Samsung SmartThings account are required. ²Consult relevant user guide/manual to ensure product compatibility with Samsung SmartThings.
